

M@M Networker

Dear M@M farmer,

Can we talk about the M@M approach?

From the beginning Man@Machine works directly together with farmers. This approach makes the job fun to do and at the same time is profitable for everyone.

Our sales attitude is geared to match wishes and possibilities, selling directly and the farmer pockets the savings.

Whether buying or using machines, the farmer always gets experienced and knowledgeable advice.

For anyone who has already purchased a machine from Man@Machine, it means you can help us extend this personal care by taking on a role in our network.

When you bring in a guest that results in a sale, you become a **M@M Networker**. This personal relationship with you is very important to us and this inspired us to develop the M@M Networker.

What is a M@M Networker?

A M@M Networker makes a colleague enthusiastic for a Treffler machine.

With the potential customers permission, he passes this information on to Man@Machine. In this stage Man@Machine takes the leading role and discusses the possibilities of the sale. When there is an official sale, the M@M Networker is there to provide at least one field demonstration of the new machine to the customer.

The M@M Networker is rewarded with an honorable distinction: a Treffler pin. He also receives 2,5 % of the purchase amount.

Discover a hidden talent in yourself, become a M@M Networker.
